

Procurement Planning

Customer journey

01. Initial Consultation

We'll meet with you to help define the scope, timelines and key milestones. We'll discuss your goals and challenges so that we can adapt the service to suit.

02. Discovery Stage

We'll take time looking at your asset data and current plan to see where we can deliver efficiencies through a new procurement pipeline. We'll check data for consistency and accuracy.

03. Planning Workshop

Our team will map out your procurement journey with timescales and project milestones. We'll discuss possible routes to market according to project type and scope - this will include open tenders, frameworks or utilising current agreements.

Member benefit

SEC Members receive a 10% discount on our Procurement Planning service compared to Non-Members.

04. Delivery

We'll present a clear, actionable and tailored pipeline to your team, and can deliver training alongside this to help you manage the process in-house.

05. Ongoing Support

The help doesn't stop there - our team can be on hand to assist throughout your pipeline and help with any procurement projects down the line.
