

FRAMEWORK GUIDE

# Electrical Works

Appoint experienced contractors able to deliver electrical testing works and upgrades across your buildings.

# About this framework

---

## Framework Scope:

This framework is designed to support public sector organisations – including housing, health care and education providers. It connects you to a range of experienced contractors able to support with your electrical testing works and upgrades.

Its scope covers electrical renewals, EICR's and electrical repair works. Any publicly funded body can access the framework for free – and we'll be able to support you throughout the procurement process.

<b>Framework Reference</b>	2023/S 000-035785

# Accessing this framework

---

## Access Options:

### Direct Award

You're able to Direct Award to the top ranked supplier on this Lot providing that your requirement is within the scope of the framework. In exceptional cases, you are able to direct award outside of number 1 with a strong justification.

**How long will this take me?** 3 – 4 weeks depending on your internal approval process

[Click to view our process map](#)

### Mini-Competition

You're also able to run a mini-competition to call off this framework. You'll be able to use your own specification and cost model. You can also choose your own cost / quality split and quality questions. All pricing submitted by contractors must be linked to the framework.

**How long will this take me?** 6 – 8 weeks depending on your internal approval process

# Frequently Asked Questions

---

## Who can access this framework?

Any publicly funded body can use this framework. Access is not limited to SEC Members alone. [Full details can be found here.](#)

## Is there a cost to access?

There is no access fee to use this framework. A levy % dependant on whether you are a guest or member is collected directly from the contractor once a call off contract is awarded. This percentage will never be more than 1.5% for Members and 2% for Guests.

## How do I access this framework?

If your organisation is already a SEC Member then you will not need to sign an additional Access Agreement. You're already signed up.

If your organisation is new to SEC, and would like to use our frameworks as a non-member then you will need to sign our Access Agreement. You'll only need to sign this once and you'll receive access to all our Frameworks and DPS's – even ones we procure in the future. You can view a draft agreement here – [DRAFT Access Agreement \(Non-Members\)](#).

# Why use SEC?

Working with us means partnering with a not-for-profit organisation dedicated to supporting the housing sector. Public procurement is what we do best – since 2005 we've ensured that every framework we procure is designed by and for our customers. And, we reinvest our surplus back into the housing sector through our Training and Insights programmes.

## What it means for you:

- Fully compliant route to market with advice from procurement experts across each stage of your project
- Additional support with your technical documents, procurement strategy and contract management when you need it
- Amplified social value on top of what's already delivered through your contract. You'll also help fund our reinvestment programmes delivering training, sector insights and community projects

£1,000,000 investment in training that bridges the skills gap and £400,000 to community projects.

Plus £230,000 on insights projects that support better procurement practices.

# Next Steps

---

We've got two options depending on where you are with your project.
